
COMPLETE EQUESTRIAN REQUIREMENTS FOR HORSE LEASING

Our leasing program is intended for accomplished riders to practice and perfect their riding skills. We do not lease to riders who are in the beginner/intermediate stages of their riding program. This is not because our horses are unsafe. This is because we would encourage these riders to work under an instructor during this time to increase the safest riding experience and to form the best habits. We also care deeply for our horses. We want to keep our horses from forming poor habits and experiencing incorrect riding techniques.

On The Ground:

- General Safety and awareness around the horse
- Knows how to halter, lead and tie a quick release knot
- Knows how to properly groom a horse
- Knows how to check for injuries and lameness
- Knows how to properly saddle and bridle a horse.

In the Saddle:

- Checks all tack and safety equipment before mounting
- Safely Mounts
- Rider has soft hands and is not rough in any way.
- Balanced riding seat
- Rider is able to walk, trot and canter without reins or stirrups.
